PROFESSIONAL SUMMARY

Senior Frontend Engineer with 4.9+ years of experience architecting scalable, high-performance web applications. Expert in modern React/Next.js frontend ecosystems and complex CMS/eCommerce integrations (WordPress, Shopify). Proven track record of optimizing browser rendering pipelines, implementing robust testing strategies, and leading strategic technical decisions that directly impact business growth. Skilled in bridging the gap between design and high-velocity engineering, leveraging AI-assisted workflows to drive efficiency, maintainability, and enterprise-grade performance.

CORE SKILLS

Frontend Development

React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Testing (Playwright, Vitest), Browser Rendering Performance.

Frameworks & Libraries

Redux Toolkit, React Query, Material UI, Laravel Blade, REST APIs, GraphQL.

CMS & eCommerce

- WordPress: Custom Theme/Plugin Development, OOP PHP, PSR Standards (PSR-12, PSR-4), Object Caching, Dependency Injection.
- Shopify: Liquid, Theme Customization, Shopify Functions (Wasm/Rust/JS), Checkout Extensibility, Hydrogen/Oxygen.
- Other: Drupal, eCommerce Migrations.

Tools & Infrastructure

Git, GitHub, Jira, CI/CD Pipelines, Figma, SEO, Accessibility (WCAG), Lighthouse, Core Web Vitals.

AI-Assisted Development

ChatGPT, Claude Code, Cursor AI, Google Gemini, GitHub Copilot, Figma MCP Server.

KEY ACHIEVEMENTS

- Orchestrated the development of high-impact enterprise web solutions for premier UAE platforms, managing large-scale deployments across transportation, tourism, fintech, and healthcare sectors to serve millions of users.
- Engineered technical optimizations that consistently achieved Lighthouse performance scores of 90+, significantly reducing bounce rates and enhancing SEO visibility through advanced code splitting and asset management.
- Architected a strategic, reusable component library integrated across React, Next.js, and CMS ecosystems, reducing development cycles by 30% and ensuring cross-platform design consistency.
- Optimized Core Web Vitals to drive a measurable increase in user engagement and conversion rates, aligning technical performance with critical business growth metrics.

PROFESSIONAL EXPERIENCE

Mobiworld FZ LLC | Web/UI Developer | Oct 2024 – Present

- Spearheaded the architecture of high-performance React.js and Next.js enterprise platforms (e.g., Parkin.ae), resulting in a 40% improvement in load speeds through advanced code splitting and lazy loading strategies.
- Leveraged AI-assisted development tools including GitHub Copilot and Cursor AI to accelerate feature development and codebase optimization, reducing development time by 35%.
- Architected headless WordPress integrations and high-performance Shopify Liquid logic implementations, delivering bespoke custom plugin and theme development to streamline enterprise eCommerce workflows.
- Enhanced Core Web Vitals and frontend performance across large-scale UAE platforms.

NetObjex India Pvt Ltd | Web/UI Developer | Apr 2023 – Apr 2024

- Engineered scalable React.js and Next.js applications for high-traffic environments, achieving a 30% reduction in latency by implementing refined state management and caching strategies.
- Integrated AI-driven debugging and code generation tools like ChatGPT and Claude Code to enhance code quality and accelerate troubleshooting cycles.
- Engineered end-to-end WordPress and Shopify solutions featuring advanced eCommerce performance tuning and complex backend API integrations to automate multi-channel inventory and sales logic.
- Modernized Agile development lifecycles, fostering cross-functional collaboration with design and backend teams, and managing large-scale deployments through proactive stakeholder communication.

Coincrowd Ltd | Web Developer | Jul 2021 – Jul 2022

- Developed modular React.js components and reusable frontend systems.
- Improved deployment speed and maintainability through component-driven architecture.
- Executed eCommerce migrations and improved website performance and Lighthouse scores.

Radical Stack Ltd | Web Developer | May 2019 – Jun 2021

- Integrated modern React interfaces with CMS platforms and third-party APIs.
- Built responsive and cross-browser compatible user interfaces.
- Delivered user-focused web experiences while improving performance and maintainability.

SELECTED PROJECTS

- Parkin.ae — Developed core frontend architecture using React.js and Next.js, optimizing API integration and performance. Leveraged AI tools (Cursor AI, GitHub Copilot) for rapid component scaffolding and automated unit testing.
- Adai.art — Engineered a highly responsive UI utilizing Laravel Blade and Tailwind CSS. Implemented AI-driven design-to-code workflows to improve cross-device usability by 25%.
- Global Village, Wild Wadi, Ain Dubai — Drupal, PHP, JavaScript
- Bionutrica — Engineered a custom Shopify Liquid storefront with advanced product filtering and AJAX-based cart logic; performed deep eCommerce performance tuning to reduce page load by 40%.
- KRIMS Hospitals — Developed a full-stack WordPress healthcare portal featuring custom post types for patient records and a secure appointment booking system integrated via PHP and Elementor.
- Kresus — Architected a complex WordPress theme from scratch, utilizing custom backend logic and REST API integrations to synchronize real-time data from third-party financial services.
- Personal Portfolio — Next.js, Responsive UI, CSS Animation

EDUCATION

Bachelor of Technology (B.Tech) | Rajasthan Technical University
